

Steps for Downloading ActivInspire, the Resource Pack & ActivDriver

1. Go to <https://support.prometheanworld.com/product/activinspire>, click [Download ActivInspire](#), and follow the steps to download ActivInspire for your Windows machine or Mac

2. When you launch ActivInspire, you will need to enter the license # that is on the white sticker on your ActivPanel

3. To get thousands of resources in your ActivInspire library, you will need to download the Resource pack by going to:

<https://support.prometheanworld.com/product/activinspire> and clicking on [ActivInspire Resource Pack](#). You will then need to choose an import location – choose *Shared Resources*.

4. Finally, you will need to download the ActivDriver – this allows for touch capabilities when you plug your laptop into your new ActivPanel. Go to <https://support.prometheanworld.com/product/activdriver> and click on the either [Download for Windows 32 or 64 bit](#) (if you do not know if you have 32 or 64 bit for Windows, go to your Control Panel, and look under Systems) or [Download for Mac](#).
